

East Brent Parish Shops and Trades.

The following is a listing of the names of trades people and establishments drawn from the entries in Somerset trade directories from 1835 – 1935.

These directories are notorious for publishing out of date information! From the time the information was taken to when it was printed could be up to two years!! And then there's my "typo's" !!!

But you are welcome to use it. Any additional information and corrections will be most welcome.
